

DTK-8FF 8-Outlet Plug-In Surge Protector

DITEK's DTK-8FF eight outlet Surge Protective Device (SPD) protects AC power and telco/modem/fax lines. Its hybrid circuitry provides excellent point of use protection. Up to six transformers can be used at the same time, and EMI/RFI filtering provides extra protection for sensitive electronics.

Product Features

- 8 AC outlets protected, up to six transformers
- Diagnostic LED indicates ground presence and suppressor function
- Automatic shutdown feature turns off power in case of suppressor overload
- 1 in / 2 out RJ11 telco protection included
- Mounting slots allow installation on wall or backboard

Applications

- Access Control System
- Security System
- Voice/Paging System
- Home Office
