

DITEK's DTK-GLI (Ground Loop Isolator) is a passive device that utilizes state-of-the-art hybrid circuit technology to reduce video distortion caused by ground loop interference. The GLI corrects most common ground loop problems, including video distortion; and eliminates picture tearing, cross talk and rolling. The GLI is ideal for use where a video signal is transmitted via cable between points with different ground potentials, typically caused by unbalanced power loads. The result is the presence of AC current in the cable shield.

Product Features

- Prevents video signal distortion caused by conflicting power loads
- Passive device allows for two-way communication of control/video
- Small footprint for ease of installation

Applications

- Video Surveillance over RG-59/U or RG-6/U Coax Cable (not recommended for HDCCTV)
- Installed prior to recording device and monitor

Technical Specifications	
Insertion Loss:	1.1dB (5MHz)
Impedance:	75 ohms
Common Mode Ground Loop Rejection Rate:	90dB @ 50/60Hz
Dielectric Withstand Voltage:	1,000V @ 60Hz for 2 seconds

Mechanical Specifications	
Connection Method:	BNC Female In/Out
Housing:	ABS
Operating Temperature:	-40°F – 158°F (-40°C – 70°C)
Maximum Humidity:	95% non-condensing
Dimensions:	3.0" L x 2.4" W x 1.3" H (76.2 mm x 61 mm x 33 mm)
Weight:	4 oz (113 g)

Quality Standards & Approvals	
Warranty:	10 Year Limited Warranty
