

DTK-HVACKIT

HVAC System Surge Protection Kit

DITEK's HVAC Surge Protection Kit is perfect for commercial and residential HVAC installers who want to provide an additional, valuable service to their customers. Power outages, surges and voltage transients can damage your heating and cooling system just like any other valuable electronic device. DITEK's top quality, superior performing products help prevent equipment loss during these damaging events

PRODUCT FEATURES

- Includes (1) DTK-120/240CM+ for condensing unit or air handler AC power protection
- Includes (1) DTK-4LVLPLV for 24Vdc thermostat wiring
- See individual product data sheets for technical specifications

APPLICATIONS

- Residential HVAC Systems
- Commercial HVAC Systems
