

DTK-MRJPOES Power over Ethernet Surge Protector

DITEK's DTK-MRJPOES protects circuits that use state-of-the-art Power over Ethernet connections. This point of use surge protector is compatible with CAT5e, CAT6 and CAT6A cabling infrastructure; and can be installed either at the equipment end, or ahead of injectors or network switches. Its multi-stage, hybrid design provides superior protection for PoE applications. When used with shielded twisted pair (STP) cabling, the DTK-MRJPOES does not require a separate earth ground.
